PROFESSIONAL SUMMARY

Computer Science undergraduate (3.62 CGPA) with hands-on experience building production **ASP.NET Core**, **Windows Forms**, and **Avalonia UI** applications end-to-end. Skilled in relational schema design, **Entity Framework Core**, LINQ, REST APIs, authentication/RBAC, and cloud integrations. Currently shipping and maintaining a live inventory system actively used in business operations. Seeking a **.NET Developer Internship** to leverage C# and backend development expertise.

TECHNICAL SKILLS

Languages & Frameworks: C#, .NET 8 / .NET 9, ASP.NET Core MVC, ASP.NET Core Web API, Entity Framework Core (EF Core), Avalonia UI, Windows Forms

Databases & ORM: PostgreSQL (Supabase), MySQL, SQL Server (SSMS), Relational Schema Design, EF Core Migrations

APIs & Security: REST API Design, Role-Based Access Control (RBAC), Cloudinary API, Secret Management (User-Secrets)

DevOps & Tools: Git, GitHub, Visual Studio 2022, dotnet CLI, SSMS, Capacitor (Android Shell)

Core Engineering: OOP, Clean Architecture, Input Validation, Debugging & Troubleshooting, Technical Documentation

WORK EXPERIENCE

.NET Developer — KOGO Metal

Jan 2026 – Present

Karachi, Pakistan

- **Architected & Shipped Live Inventory System:** Designed and deployed a full-stack inventory web application using **ASP.NET Core** and **PostgreSQL**. Implemented per-item QR code generation and real-time scanning for stock intake/removal, replacing manual tracking (~100 live items).
- **Internal Desktop Utilities:** Developed and maintained custom in-house C# desktop tools to automate internal business workflows and reporting.

.NET Developer — Precision Multiproducts Ltd.

June 2025 – November 2025

Karachi, Pakistan

- **Internal Support Ticketing System:** Engineered a full-featured internal ticketing system using **C#** and **ASP.NET Core** to streamline support request tracking and issue resolution.
- **Customer & Inventory Management Portals:** Built responsive ASP.NET web pages with full CRUD functionality, integrated with **PostgreSQL** backends to maintain customer records and stock workflows.
- **Database & Software Maintenance:** Gathered requirements, designed relational schemas, wrote optimized SQL queries, and maintained C# codebases through routine testing and debugging.

KEY PROJECTS

Student Portal • **ASP.NET Core MVC (.NET 8)** • **PostgreSQL** • **Cloudinary** • **Capacitor**

github.com/aayan-amir/StudentPortal

- Built a full-stack classroom content-sharing portal where students submit notes, images, and PDFs into moderated subject rooms with an admin approval queue.
- Engineered a custom `FilesController` leveraging Cloudinary API for secure file uploads, inline PDF viewing, and gated secure downloads.
- Implemented admin authentication with startup-validated secrets enforcement and shipped a Capacitor Android native wrapper.

NoTerm Command Center • **Avalonia UI** • **.NET 8** • **C#** • **Security-First**

github.com/aayan-amir/NOtoTERMINAL

- Built a cross-platform Linux desktop GUI offering 66 predefined system administration actions for non-terminal users.
- Applied security-first design: zero free-form shell input, execution via `ProcessStartInfo.ArgumentList` to eliminate command injection, type-validated parameters, and destructive action prompts.

EDUCATION

Bachelor of Science in Computer Science

Sir Syed University of Engineering & Technology | Karachi, Pakistan

Relevant Coursework: Object-Oriented Programming (C# / OOP), Data Structures & Algorithms, Database Systems (DBMS), Web Engineering, Software Architecture.

Currently

Enrolled

CGPA: 3.62 /

4.00
